

THE POWER OF LIGHT: THE SUN AND THE NEW UNIVERSE

DR. ZSUZSANNA FAJCSAK

The young Sun has grown up and it's time for the Father Sun to move on and build a new universe. However the Father Sun can't let go of the Earth. After a long inner battle, the young sun just had to say something to his father.

- "You know dad, I have been seeing you struggling here working so hard every day and worry so much. I can see your shine is fading and your face is wrinkling. I wonder; what is the reason? "

- "Yes my son, you are right, I am struggling, I am battling inside. I know it's my time to leave and build my new Universe, but there is so much trouble on Earth, there is so much darkness, and the Earth needs me to keep shining. How can I leave? How can anybody do what I do? What would happen to Earth if I leave?"

The son said:

- "But dad, you have been training me day and night to do your job and I believe you have seen how I can perform. You know, the trouble will never stop on Earth until the inhabitant think the way they do and destroy themselves and the Earth. We can only do so much. You can carry only so much on your shoulder.

Our light will reach those who want to be enlightened and they can shine for us and continue enlightening others on Earth. As far as I see it, you are wasting your time here, as I can perfectly continue your job.

I am 21 years old and I have my full strength to shine. I can shine now with full power to give light to the moon which way we continue sharing the job and give light to Earth. I look over the Earth daylight and the Moon and Stars will take over at night. Dad, you do believe in yourself, aren't you? You have been putting so much effort into raising me, don't you? Please see, it's time to allow me to take over and you have your dream universe waiting for you to shine on, now. They need your expertise to begin life. And Dad, let me ask you: What if you take off one week to rest and gave us a chance and test us. Go visit your new universe and allow us to your job, now."

The father said:

- "You know my son, you are so right. Of course I believe in myself and trust myself. I also believe in you and trust you. I know I did a good job training you and I know you can manage the Moon to his job very well. I will now give you what you asked for and trust that you will do a great job looking after Earth. And thank you for the reminder, it's very true, that no matter how much we care, some people will decide to run back to the dark even though we did our best to shine. It does not mean we did not give them light, it's just not the right time for them to come out of the cave. That is not our fault. We need to let them be and allow them to stay in the dark, make mistake, learn and feel the way out of the dark through light. The power of light reaches all who are ready."

The Son:

- "Dad, I am so proud of you for listening to my words! You may not have noticed, but something miraculous has happened already! Your shine is coming back already, your face has smoothed out and I can feel your heat piercing through the clouds."

- "Really, it shows? You can see? Wow, I feel so much better already. It's like millions of tons have been lifted off my shoulders. I feel at totally at peace."

I am confident to go and see about building my new universe now. You know my Son, I have been waiting for something to happen, so it will make me move and I realized that things will happen only if I make them happen and the time to do it when I decided and it's right now.

So the Father Sun packed up and left to the New Universe. He has been shining ever since with full power to create new life lighting up his New Universe. Earth is doing really well, as the Son follows his Father's footsteps in taking good care. And everybody lived happily ever after.
